PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student with foundational knowledge in programming, software development, web technologies, and cybersecurity. Strong understanding of core Computer Science concepts including Data Structures, OOPS, DBMS, and Operating Systems. Passionate about Full Stack Development, Artificial Intelligence, and Cybersecurity. Quick learner with strong analytical thinking and problem-solving abilities. Seeking internship opportunities to gain practical exposure, contribute to real-world projects, and enhance technical expertise.

EDUCATION

Degree	Institute	Year	Score
B.Tech – Computer Science	CMR Engineering College	2023–2027	–
Intermediate (MPC)	Narayana Junior College	2023	85%
SSC	Vijetha High School, Narayankhed	2020	100%

TECHNICAL SKILLS

- **Programming Languages:** Python (Basics), Java (Basics), Understanding of OOPS concepts
- **Web Development:** HTML, CSS, JavaScript (Basics), Responsive Design Concepts
- **Computer Science Fundamentals:** Data Structures (Arrays, Strings – Basics), DBMS Concepts, SQL Basics, Operating Systems Basics
- **Cybersecurity Concepts:** Networking Fundamentals, Information Security Principles, Basic Threat Awareness
- **Tools & Technologies:** Git, GitHub, VS Code, Linux (Basic Commands), MS Office
- **Software Development Skills:** Debugging, Code Optimization (Basic), Version Control, Problem Solving

ACADEMIC PROJECTS

- **Basic Python Applications:** Developed small programs such as calculators, number systems, and automation scripts to strengthen programming logic and algorithmic thinking.
- **Personal Portfolio Website:** Created a simple responsive website using HTML, CSS, and JavaScript to showcase projects and technical skills.
- **GENDER PREDICTION USING SOUND:** Artificial intelligence, Gender recognition through voice.
- **Minimal IP Geolocation Tracker:** The IP and Geo Explorer project is an advanced, client-side web application designed to analyze and visualize both network and geographical data
- **Machine Learning-Based Sentiment Analysis in English Literature:** Strong expertise in both low-level systems programming and modern web development

CERTIFICATIONS

- Cisco – Introduction to Cybersecurity
- Cisco – Modern AI
- Salesforce – Agentforce Certification
- Infosys Springboard – Basics of Python
- Infosys Springboard – Full Stack Development

PERSONAL SKILLS

- Strong Analytical and Logical Thinking
- Effective Communication Skills
- Quick Learner and Adaptable to New Technologies
- Team Collaboration and Leadership Ability
- Time Management and Organizational Skills
- Self-Motivated and Goal-Oriented
- Ability to Work Under Pressure

EXTRA-CURRICULAR ACTIVITIES

- Participated in technical workshops and seminars related to AI and cybersecurity.
- Practiced coding regularly to improve problem-solving skills.
- Engaged in online technical learning platforms to enhance development skills.

HOBBIES

- Exploring Artificial Intelligence tools and new technologies
- Coding practice and logical problem solving
- Reading about emerging cybersecurity trends
- Playing chess and strategy-based games
